

POWER OF NEGATIVE IONS

www.naturalwater.ca

SAISEIKO CERA Showerhead

Have you ever spent time by a waterfall or mountain stream and noticed that the air makes you feel good? This is due to the NEGATIVE IONS that those environments produce. NEGATIVE IONS have positive effects on body, mind and soul. They are therapeutic. They have the power to relax the body, stabilize the mind, and strengthen the function of heart and lung. NEGATIVE IONS change the oxide substance in our body to alkaline. And the change makes it easy for our body to absorb oxygen and nutrition.

Some studies show the remarkable effects of negatively charged ions. Animals exposed to NEGATIVE IONS have tendencies of less high blood pressure or ulcers. They even showed healing effect on ulcers. Natural water has NEGATIVE IONS originated from the water falls and streams. The constant flow and crash with rocks change the molecular of water smaller, and generate NEGATIVE IONS.

With the Far-Infrared Rays radiated by SE/BA ceramic balls, SERA Showerhead produces strong NEGATIVE IONS that is not only good for your body and skin but also beneficial for your soul.

Measured Value of Negative Ion Density

CERA Shower Head	-66,033 / cc
Near Waterfall	-3,000 ~ -5,000 / cc
General Home	-100 ~ -250 / cc

PRODUCTS

SAISEIKO CERA Showerhead

BENEFITS

CERA - Elite

Color	BLUE, PINK, WHITE	
Material	PC Resin	
Size (mm)	220 X 66	
Usage	Massage	

CERA - Mild

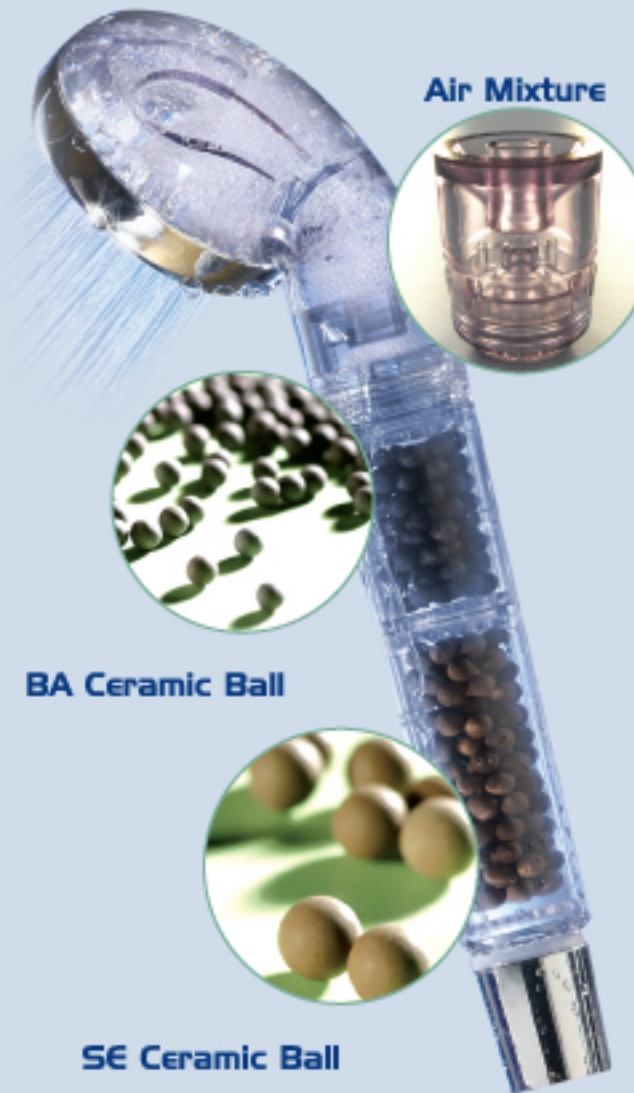

Color	BLUE, PINK, WHITE	
Material	PC Resin	
Size (mm)	220 X 80	
Usage	Bathtub	

CERA - Soft

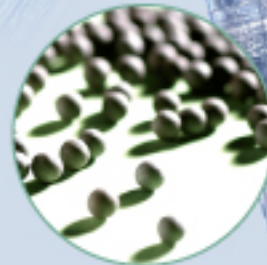

Color	BLUE, PINK, WHITE	
Material	PC Resin	
Size (mm)	130 X 105	
Usage	Bath Booth	

CERA - Salon

Color	Black	
Material	PC Resin	
Size (mm)	70 X 90	
Usage	Salon	

Air Mixture

BA Ceramic Ball

SE Ceramic Ball

Activated Water

- Moisturize dry skin (better permeability)
- Produce negative ions
- Prevent direct contact of chlorine
- Help to reduce atopic dermatitis and itchiness
- Maintain your hair in good condition

Air Mixture

- Enrich the amount of Dissolved Oxygen in water
- Double the power of water stream
- Reduce 25 - 35% of water usage
- Increased oxygen in water rejuvenates your skin.

BA Ceramic Ball

- Radiate Far-Infrared Rays to reduce bacteria and other impurities
- Enhance the power of activation

SE Ceramic Ball

- Radiate Far-Infrared Rays to ionize water
- Start to activate water molecules
- Activated water molecules prevent chlorine, which is causing atopic dermatitis, from contacting your skin directly.
